Clinical studies have not been conducted with the Akreos Advanced Optics Aspheric Lens to assess the effect of the added aspheric surface to the parent lens Model Akreos on spherical aberration, visual acuity and contrast sensitivity.

*A-Constant, ACD and Surgeon Factor are estimates only. It is recommended that each surgeon develop his or her own values.

**Updated on 10/2009. Subject to future updates.

**OPTIC/HAPTIC:**
- Unique acrylic formulation
- One-piece, four-haptic design
- Optic: Biconvex, diameter 6.0 mm
- Haptics: 0 degrees angulation
- Refractive index: 1.458 (hydrated)
- Diamond lathe cut for precision optics

**OVERALL DIAMETER:**
- 10.5 mm from 22.5–30.0 D
- 10.7 mm from 15.5–22.0 D
- 11.0 mm from 0.0–15.0 D
- Recommended for capsular bag placement only

**DIOPTER RANGE:**
- 0.0–9.0 D in 1.0 D increments
- 10.0–30.0 D in 0.5 D increments

**LENS CONSTANTS:**

<table>
<thead>
<tr>
<th></th>
<th>Applanation A-scan</th>
<th>Immersion A-scan or IOLMaster**</th>
</tr>
</thead>
<tbody>
<tr>
<td>A-Constant*</td>
<td>118.0</td>
<td>118.5</td>
</tr>
<tr>
<td>ACD*</td>
<td>4.96</td>
<td>5.18</td>
</tr>
<tr>
<td>Surgeon Factor*</td>
<td>1.22</td>
<td>1.40</td>
</tr>
</tbody>
</table>

*Clinical studies have not been conducted with the Akreos Advanced Optics Aspheric Lens to assess the effect of the added aspheric surface to the parent lens Model Akreos on spherical aberration, visual acuity and contrast sensitivity.

CATARACT SURGICAL PRODUCTS

As a global leader in eye care, Bausch & Lomb is dedicated to perfecting vision and enhancing lives through innovative technology and design. To this end, we provide ophthalmic surgeons with a full array of products, including support for safe, minimally invasive cataract surgery.

STELLARIS® VISION ENHANCEMENT SYSTEM
Developed with input from leading surgeons from around the world, the Stellaris system provides exceptional safety, efficiency and ease of use. The versatile technology of the Stellaris system gives surgeons the option of selecting the ideal technique for each cataract patient, including advanced sub-2 mm microincision phaco (MICS™).

IOL SYSTEMS
Delivering a wide range of advanced IOLs and complementary inserter technologies, Bausch & Lomb IOLs, including the premium Crystalens® accommodating lens, consistently provide exceptional vision quality and contrast sensitivity, making our “Perfecting Vision. Enhancing Life.” mission statement a reality.

LENS DELIVERY SYSTEM
The Bausch & Lomb Akreos® Single Use Insertion Device allows you to load the lens into the inserter, setting a new standard for ease of use that translates into reduced surgical times and more predictable, reliable lens delivery through a sub-3 mm incision.

VISCOELASTICS
A choice of viscoelastic products that deliver the right viscosity and clarity to satisfy different procedural demands, including Amvisc® PLUS, Amvisc® and OcuCoat®.

OPHTHALMIC INSTRUMENTS
The Storz® brand of precision-engineered microsurgical instruments, diamond knives and disposable surgical products designed to serve the needs of every surgeon for every patient.

To order Bausch & Lomb products, call 800-338-2020 or fax 800-362-7006.
